The working conference dealt with recent developments in the field of modelling and optimization and with knowledge based decision support systems. This contributed to the realization of the aims of the working group 7. 6 which are: - to promote theoretical research in the field of optimization including mathematical programming and optimal control; -to encourage the development of sophisticated knowledge based systems in which refined optimization models and algorithms are used; - to contribute to the exchange and dissemination of information and collective experience among the interested groups and individuals; - to support the practical application of such systems in control, engineering, industry, economy etc. A selection of papers is included into this proceedings volume since they reflect the current state of research in areas of interest to the field of (KB)DSS, andor they are the value for the dissemination and exchange of information related to research topics of interest, andor they describe relevant practical experience related to designing, building, implementing and using (KB)DSS. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
