Where did we come from? Is there a greater purpose for each of us? What and where is heaven? William Pillow asked himself these questions and many others when his wife became ill. Love and Immortality is an autobiographical love story and a scientific and metaphysical discussion about death, God, our souls, the spirit world, and reincarnation. It also discusses the implications of how we live our lives based on love, eternity, and theological concerns. What Pillow discovered through his research and readings on reincarnation, near-death experiences, and past-life hypnotic regression is found within these pages. Pillow relates how he grew up and excelled as a loner, performing what was expected but without understanding and appreciating the role of gratitude. After retirement, faced with his wife's lingering illness, he worried about losing her in death. In Love and Immortality, Pillow encourages us to enjoy a better life, stop fearing death, discover our souls, and look forward to seeing loved ones again after death. We just need to believe and be open to ask ourselves the question: What if?.
