By Lynne Koontz, Professor John B Loomis

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.The U.S. Fish and Wildlife Service (FWS) and the National Park Service (NPS) are preparing a management plan for bison and elk inhabiting the National Elk Refuge (NER) and Grand Teton National Park (GTNP). These animals are part of the bison and elk herds in Jackson Hole, one of the largest concentrations of free-ranging bison and elk in the world. A range of alternatives for managing the bison and elk herds in the project area will be developed in an Environmental Impact Statement. The EIS will include an analysis of elk hunting programs related to the NER and GTNP. Management of the Jackson elk herd on the NER and GTNP can impact the number of hunters allowed and hunter harvest ratios on NER, GTNP, and Bridger Teton National Forest (BTNF). To assist the EIS planning effort, the U.S. Geological Survey (USGS) in cooperation with the Wyoming Game and Fish Department (WGFD) conducted a survey of elk hunters that hunted within the Jackson elk herd unites during the 2001 hunting season. The objective of this survey and analysis was...
