

## Recent Trends in Nonlinear Partial Differential Equations: Evolution Problems

Filesize: 4.6 MB

### Reviews

*Simply no words and phrases to spell out. it was written extremely perfectly and useful. I am easily could possibly get a satisfaction of looking at a composed publication.*  
*(Prof. Maudie Ziemann)*

## RECENT TRENDS IN NONLINEAR PARTIAL DIFFERENTIAL EQUATIONS: EVOLUTION PROBLEMS

[DOWNLOAD PDF](#)

American Mathematical Society, United States, 2013. Microfilm. Book Condition: New. 248 x 178 mm. Language: English . Brand New Book. This book is the first of two volumes which contain the proceedings of the Workshop on Nonlinear Partial Differential Equations, held from May 28-June 1, 2012, at the University of Perugia, Italy in honour of Patrizia Pucci's 60th birthday. The workshop brought together leading experts and researchers in nonlinear partial differential equations to promote research and to stimulate interactions among the participants. The workshop programme testified to the wide ranging influence of Professor Pucci on the field of nonlinear analysis and partial differential equations. In her own work, Patrizia Pucci has been a seminal influence in many important areas: the maximum principle, qualitative analysis of solutions to many classes of nonlinear PDEs (Kirchhoff problems, polyharmonic systems), mountain pass theorem in the critical case, critical exponents, variational identities, as well as various degenerate or singular phenomena in mathematical physics. This same breadth is reflected in the mathematical papers included in this volume. The companion volume (Contemporary Mathematics, Volume 595) is devoted to stationary problems in nonlinear partial differential equations.
