Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 24 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. According to GAOs updated analysis, replacing the 1 note with a 1 coin would provide a net benefit to the government of approximately 4.4 billion over 30 years, or an average of about 146 million per year. The overall net benefit was due solely to increased seigniorage and not to reduced production costs. This estimate differs from GAOs 2011 estimate because it considers recent efficiency improvements in note processing that have extended the expected life of the 1 note and other updated information. GAOs estimate covered 30 years to be consistent with previous GAO analyses and because that period roughly coincides with the life expectancy of the 1 coin. This item ships from La Vergne, TN. Paperback.
