This book continues the authors concern about the invisible but deep impact of the technological imperative - the obsession that everything has a technical-rational conceptual-data base and can be understood in an abstract-artificial context of a pure thought reality. This obsession shields the human from the natural organic reality of existence which, at one time, included nature-earth-experience and the human as a macrocosm, or universe in miniature. This connectedness has been lost in the new technoscience perspective, and along with it the loss of vision and awareness which are the true foundations of human existence. The author focuses on the Native Way of Seeing and the Tao-Chan-Zen way of life as awareness-awakening in the here and now. The New Science - of Synchronicity shows a deep and cosmic coherence, and this is good, but the personal-cosmic connectedness with the human as...
