The Second Imperial Entomologist. 3. Course. - The ordinary College course extends over two years, and the students will be trained in one or other of the following sections of agricultural science, no students being trained in more than one section at a time: - 1. Agricultural Chemistry. 2. Economic Botany. 3. Economic Entomology. 4. Mycology. 5. Agricultural Bacteriology. 6. Agriculture. 4. Syllabus. - In the absence of experience of the class of student likely to be received, it is impossible to lay down a permanent syllabus of the training in each subject. The syllabus that follows is tentative and is subject to the condition that time will not be wasted in taking students over ground that is already familiar to them. I. Agricultural Chemistry. (Two years course.) (i) A course of lectures and laboratory practice of the same type as laid down in the Standard Curriculum for Provincial Colleges. (ii) A course or courses of lectures in advanced chemistry...

Reviews

Undoubtedly, this is the best job by any article writer. This really is for all those who statte that there was not a worth reading. I am very easily can get a enjoyment of reading a published pdf.

-- Rowena Leannon

A brand new e book with an all new point of view. I have got read and i am sure that i am going to likely to read through once more once more in the future. It is extremely difficult to leave it before concluding, once you begin to read the book.
