HarperCollins Publishers Inc. Paperback. Book Condition: new. BRAND NEW, Finding Darwin's God: A Scientist's Search for Common Ground Between God and Evolution (annotated edition), Kenneth R. Miller, Miller is a believer, but he is also certain that we evolved - and this book is about why the two are not mutually exclusive; in fact, the idea of each enriches the other. There is an enormous market out there for whom this issue is of real interest and import. Much of contemporary thought on evolution has centered on the mistaken assumption that evolution requires a strictly materialist view of the origins of all organisms - including human beings. This book will debunk that myth, arguing that the real world is less certain and far more interesting than either the scientific mainstream or creationists assume. Properly understood, evolution adds depth and meaning not only to a strictly scientific view of the world, but to a spiritual one, as well. Readers will find this fascinating, very clear, incisive, exciting, and thoughtful. This should sell like Gould and Wilson-brilliant, cutting-edge thinking.
