By Anonymous

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1896 edition. Excerpt: .was necessary to keep it covered when not in use. A portion that was left uncovered for a week became watery. Experiment No. 3.--Mix starch, 2 ounces, and water 16 ounces, and make a paste by heating. When cool add ounce of formaldehyde. This was made on the same day as No. 2 and subject to the same conditions. It is in perfect condition at the present writing. Experiment No. 4.--Mucilage of acacia, U. S. P., was made and 1 per cent of formaldehyde added. This has has now been standing for two months in a warm place and shows no signs of fermentation. Experiment No. 5.--Make a thick paste from white dextrin, 4 ounces; and water, as much as required. Then add 8 ounces of flour paste made as in experiment No. 1, and ounce of formaldehyde. This has been setting on the...
